## Scooters and Scooterists

On its trial trip last Saturday, Nat Roe's motor scooter made good time but it was found necessary to change the gearing in order to get more speed out of her. Her time, it is expected, will be over a hundred miles per hour under favorable conditions.

Fred Thurber's Eagle II and Stanley Cox's speeder were among the new scooters tried out this week. Also Latham & Payne's Pee Wee, the smallest scooter on the bay. All of them made a good showing.
